Course overview

The Certified Data Analysis Professional is the first level of our Data Analysis Program. It is a hands-on training course aimed at equipping you with the necessary concepts and tools needed to perform basic statistical and analytical reporting activities, in order to generate value out of the existing data. The course provides you with the knowledge required for understanding distinct methods used in analyzing data, statistical interpretation of quantitative and qualitative data, and becoming proficient in using key Microsoft Excel features, by building frequency and conditional tables, creating different types of charts, finding correlations and relationships between variables, hypothesis testing and statistical modeling.

👤 Participants' profile

- › The course is designed for anyone who has basic mathematical training and basic competences in using Microsoft Excel. Statistical knowledge, intermediate or advanced knowledge of Excel, practical experience with data analysis and related duties are not necessary but may contribute to a better understanding and more in-depth coverage of the course content. Diversity of participants' background may help in a thorough coverage of the entire syllabus.
- › The course is addressed to managers, Human Resources Representatives, analysts, auditors or logistics and acquisitions experts, as well as to professionals from other business areas, who deal with data and analysis on daily basis.
- › The course may also be a starting point for those interested in pursuing career opportunities in data analysis, data modelling and related activities (e.g. campaign management, data mining, statistics, risk management, reporting, data processing for survey analysis etc.).

+ Benefits

- › Obtaining the most relevant data, by setting up a customized data analysis process;
- › Understanding the data analysis process, its methodology, and logical framework;
- › Obtaining the necessary knowledge to analyze complex data and to interpret results;
- › Improving the organization's decision-making process, by gaining knowledge on data analysis and interpretation;
- › Receiving the management team's buy-in, by sharing with them the utility of implementing a customized data analysis methodology in daily business activities;
- › Obtain 40 CPD credits to include in your CPD records for your professional body, institute, regulator or employer.

+ Learning objectives

- › Developing a hands-on, practical overview of data analysis and connected topics;
- › Integrating statistical concepts and analysis tools that are widely used in corporate analytics environments;
- › Analyzing examples of practical applications for statistical methods, used in solving real-life business issues;
- › Acquiring mastery of Microsoft Excel Data Analysis features, by learning to use statistical techniques through practical examples.

LERERO
Learning Reengineered

Where Learning Becomes Lasting Knowledge

The Science of Reinforcement

Most employees forget up to 90% of traditional training within a week (Ebbinghaus Forgetting Curve). Lerero flips the curve, turning training into lasting mastery through gamification, repetition, and reinforcement. With 90 days of microlearning, knowledge retention can improve by up to 80%.

The Problem → The Transformation

The 90-Day Reinforcement Championship

Most training stops at completion. The Lerero Learning Reinforcement Championship (LLRC) keeps learning alive for 90 days through micro-challenges, nudges, and leaderboards by turning completion into competence.

-  Daily Micro-Challenges
-  Leaderboards & Streaks
-  Badges & Rewards
-  Real-Time Analytics
