Course overview

KPI selection and data gathering are considered by professionals all around the world to be the most challenging aspects in working with KPIs. A way to address these challenges is to build a sound framework to measure KPIs, starting from the moment they are selected, until results are collected and centralized in performance reports. This training course presents a rigorous KPI Measurement Framework that embeds 10 years of research in the field of key performance indicators and relies on best practices identified in the business environment.

Participants' profile

› Professionals interested in measuring performance

Professionals from different fields, such as finance, human resources, production, logistics, information technology and others, interested in key performance indicators, will acquire the competencies needed to measure the performance of their team, department or organization.

› Top/middle/lower management professionals

Executives or operational managers, regardless of their field of expertise, will gain the ability and knowledge to measure performance and maximize the value of using KPIs. The tools and resources offered as part of the Certified KPI Professional Training Course enable managers to apply the concepts learned within their organizations immediately after the course.

› Performance measurement experts

For professionals like Data Analysts, Strategy Managers, Performance Management Officer or Performance Architects, it is important to develop competencies in measuring performance, especially in terms of KPI selection and data gathering. Usually, this particular audience already has a performance measurement system set in place and the course offers them the opportunity to learn the best practices used in this field and to identify how their current processes and approaches regarding KPIs can be improved.

+ Benefits

- › Support decision-making, by accessing relevant performance data;
- › Use pre-populated tools to facilitate the implementation of a KPI Measurement Framework in your organization, by receiving 10+ templates used in working with KPIs;

Where Learning Becomes Lasting Knowledge

The Science of Reinforcement

Most employees forget up to 90% of traditional training within a week (Ebbinghaus Forgetting Curve). Lerero flips the curve, turning training into lasting mastery through gamification, repetition, and reinforcement. With 90 days of microlearning, knowledge retention can improve by up to 80%.

The Problem → The Transformation

The 90-Day Reinforcement Championship

Most training stops at completion. The Lerero Learning Reinforcement Championship (LLRC) keeps learning alive for 90 days through micro-challenges, nudges, and leaderboards by turning completion into competence.
