# Course overview

To be successful in the long-run, organizations need to define a mission and a vision, which can be cascaded down into SMART strategic and operational objectives, at all hierarchical levels. The course offers an algorithm on how this can be done, with a focus on creating strategies that are internally consistent and aligned for optimal performance. At the same time, the course offers tools for both internal and external environmental scanning, which will allow companies to build strategies that are flexible and shock-absorbent, adapted to a business world that is rapidly changing. Last but not least, the course focuses on how departments can set their own strategies and action plans that are ready-for-execution and support the overall corporate strategy.

## Participants' profile

### › Business owners and top management

Business owners and top management professionals will acquire the knowledge and competencies needed to design a strategy at the corporate level, thus increasing the performance of their organization in terms of relevant financial indicators, operational indicators, customer satisfaction indicators, and employee satisfaction indicators.

### › Middle management professionals

Professionals from different fields, such as finance, human resources, production, logistics, marketing & sales and others, will acquire the knowledge and competencies to design and implement a strategy for their department that supports and is aligned to the organizational strategy.

### › Consultants and academia

These participants get a chance to validate and certify their knowledge and competencies in assisting organizations with their strategy and business planning processes at all levels. By attending this course, they also join a network of professionals and get into direct contact with companies potentially interested in their services.
